PROFILE

Frontend Developer with a passion for creating user-friendly and visually appealing websites and web applications. My skill set includes HTML, CSS, Bootstrap, jQuery, and JavaScript, which I use to craft responsive and interactive digital experiences. One of my key strengths is my dedication to responsive design. I take pride in ensuring that the websites I build are accessible and functional across various devices and screen sizes. This involves using media queries, flexible layouts, and fluid design principles to provide an optimal user experience on desktops, tablets, and mobile devices.
